

"Dance every day!"

**Time has stolen function away
Dreading to hear what he might say
But the doctor blew me away
He said, "Dance every day!"**

***Dance every day! Dance every day!
Get on your feet, moving away
There's nothing to lose and nothing to pay
Every weight is just melting away
So, dance every day!***

**Black and white turns into grey
Life is a battle - into the fray!
Glory chases the shadows away
So, "Dance every day!"**

***Dance every day! Dance every day!
Get on your feet, moving away
There's nothing to lose and nothing to pay
Every weight is just melting away
So, dance every day!***

**Time is uncertain, slipping away
And there's a truth that we need to convey
In glory, trouble can never outweigh
So, "Dance every day!"**

***Dance every day! Dance every day!
Get on your feet, moving away
There's nothing to lose and nothing to pay
Every weight is just melting away
So dance every day!***
