

Phil Overton was born in Rugby in 1955, the son of a Church organist who quickly realised that he had a passion for music and song-writing. Over the years Phil became a high profile Christian worship ministers, leading worship at Spring Harvest and other major Christian events.

However as time went on he became emotionally

and spiritually drained from the burden of the work, and found himself in turmoil. His marriage fell apart and he found himself far from God through his own mistakes. But God had not given up and in a remarkable series of events his marriage was restored and he found a new path, ministering to the abandoned children of the Punjab.

Phil will tell his inspirational story of hope and forgiveness, with songs written together with Roopa Kishor, one of the children rescued by the Morning Star School.
