

## **Love in my life**

***I need love in my life  
I need love in my life that'll never fade away***

I'd been searching all the time  
There was nothing I could find  
Climbing every mountain looking for You  
Here, there and everywhere  
I couldn't find it anywhere  
There was always something spoiling the view

***Ooh, I need love in my life  
I need love in my life that'll never fade away***

I looked back where I'd been before  
But nothing seemed the same any more  
Round every corner; where could it be?  
I thought I wasn't meant to find  
Now I know that I'd been blind  
Not to realise You'd been looking for me, looking for me

***I've got Your love in my life  
I've got Your love in my life. It'll never fade away***

Now I've got Your love , I've got Your love in my life,  
I've got Your love , I've got Your love in my life.....
