

## My loving eye

I've got my loving eye set on you  
No one makes me feel the way that you do  
You've been round the block a time or two  
I've got my loving eye set on you  
I've got my weather eye on the storm  
When its cold outside I'm going to keep you warm  
I want to shelter you from harm  
I've got my weather eye on the storm

*I may not give you all the answers  
I'm just asking you to trust  
And when you've used up all your chances  
And your gold has turned to dust  
Tell me, who're you going to trust?*

*Know that I won't forget you  
Your name's engraved on the palms of my hands  
And though at times you feel forsaken  
I'm the One who understands  
You know I really am!*

I've got my loving eye set on you  
No one makes me feel the way that you do  
You've been round the block a time or two  
I've got my loving eye set on you  
I've got my weather eye on the storm  
When its cold outside I'm going to keep you warm  
I want to shelter you from harm  
I've got my weather eye on the storm  
I've got my weather eye on the storm, yeah  
I've got my loving eye set on you – ooh yeah!  
I want to shelter you from harm  
I've got my loving eye set on you
