

Well of love

***There's a well of love for you, a well of love for you
Oh, and no matter what you do
I got a well of love for you***

It needs to be so deep for your learning curves are steep
The waters never fail; my kindness will prevail
I want to fill your cup; I want to fill it up
Though clouds are gathering, it wells up from within

***There's a well of love for you, a well of love for you
Oh, and no matter what you do
I got a well of love for you***

It won't come to an end. There's no need to pretend
Won't be easy – that is true but I got a well of love for you
It's bubbling up inside. It just can't be denied
It's faithful and it's true; there's a well of love for you

***There's a well of love for you, a well of love for you
Oh, and no matter what you do
I got a well of love for you***

It's stronger than the grave, dependable and brave
My heart is set on you; there's a well of love for you
And when all hope is gone, I'll just keep pressing on
With tears in my eyes I will see you take the prize

***There's a well of love for you, a well of love for you
Oh, and no matter what you do
I got a well of love for you.***
