

## Where angels play

I need to go back there one day  
To the place where angels play  
In the sunshine or the rain  
I need to get back there again

There's something about the journey from  
Places where you've been too long  
One day I might just go and stay  
In the place where angels play

What is it in a different place?  
It helped me see an angel's face  
From the window, on a plane  
Take me to that place again

There's something about the journey from  
Places where you've been too long  
One day I might just go and stay  
In the place where the angels play
